Subway Map Tips

When you plan a subway trip, ask yourself:

➤ Where am I? Where do I need to go?

➤ What **subway line** stops close to where I am?

➤ What **subway line** stops close to my destination?

➤ Are those subway lines the same, or will I have to **switch**?

➤ Where will I get **on** the train? Which stop is closest to where I am?

➤ Where will I switch trains? Which stop **connects** the subway lines I'm taking?

➤ Where will I get **off** the train? Which stop is closest to my destination?
