

# Cash Back Tips

## What are **big bills**?

➤ A **big bill** is worth more than \$20. So in this game, the big bills are the **\$50 and \$100 bills**.

## How do I count cash back?

➤ Find out **how much** money you need to give the customer.

➤ Choose a **bill**. Ask yourself, is this enough?

➤ If you don't have enough, **add** another bill. Ask yourself, how much are these two bills worth **together**? Is this enough?

➤ If you don't have enough, add another bill. Keep adding bills until you have **exactly** the right amount. Now you can give it to the customer.
