Some Copyright Considerations

All essays and images in this work, with the exceptions mentioned below, are believed to be in the public domain or are published here under the fair use provision of the US copyright law. Responsibility for making an independent legal assessment of an item and securing any necessary permissions ultimately rests with anyone desiring to reuse the item under to [GDFL](#). The written permission of the copyright owners and/or other rights holders (such as publicity and/or privacy rights) is required for distribution, reproduction, or other use of protected items beyond that allowed by fair use or other statutory exemptions. An independent legal assessment has been made after a search for copyright status of text and images. No representation as to copyright status outside the United States

is made. If an error occurs in spite of the good faith efforts, the offending item will be removed upon notice to

The [U.S. Copyright Office Circular 22](#) points out, "Even if you conclude that a work is in the public domain in the United States, this does not necessarily mean that you are free to use it in other countries. Every nation has its own laws governing the length and scope of copyright protection, and these are applicable to uses of the work within that nation's borders. Thus, the expiration or loss of copyright protection in the United States may still leave the work fully protected against unauthorized use in other countries."
