

# ***Interpersonal Communication Skills Inventory***

## **Purpose**

This Interpersonal Communication Skills Inventory is designed to provide individuals with some insights into their communication strengths and potential areas for development. By answering each question candidly, an individual will receive a profile that displays their level of competence in four key communication areas. This inventory is intended to be viewed only by the individual who completes it.

## **How to Complete the Inventory**

To complete this inventory, read each statement carefully and honestly assess how often the particular statement applies to you. For instance, in Section I - question number 1, if you sometimes find it difficult to talk to other people, you would place a check mark in the "Sometimes" column for question number 1. And for question 2, if others often tend to finish sentences for you when you are trying to explain something; you would check the "Usually" column and so on until you have completed all questions in all four sections of the inventory.

## Interpersonal Communication Profile

*Interpretation: Look at your score for each section as one indication of the degree to which you effectively communicate. Plot your scores on the table below using an "X" for each section score. Draw a line to connect them column to column. This will create a profile of your strengths and opportunities for improvement.*

- Scores in the 1 > 15 range indicate areas of your communication skills that need improvement.
- Scores in the 16 > 21 range indicate areas of communication skills that need more consistent attention.
- Scores in the 22 > 30 range indicate areas of strength or potential strength.
