Foreword

Our country's future lies in the education of our children. The Government of Sierra Leone is committed to doing whatever it takes to secure this future.

As Minister of Education, Science and Technology since 2007, I have worked every day to improve our country's education. We have faced challenges, not least the Ebola epidemic which as we all know hit our sector hard. The Government's response to this crisis – led by our President – showed first-hand how we acted decisively in the face of those challenges, to make things better than they were in the first place.

One great success in our response was the publication of the Accelerated Teaching Syllabi in August 2015. This gave teachers the tools they needed to make up for lost time whilst ensuring pupils received an adequate level of knowledge across each part of the curriculum. The Accelerated Teaching syllabi also provided the pedagogical resource and impetus for the successful national radio and TV teaching programs during the Ebola epidemic.

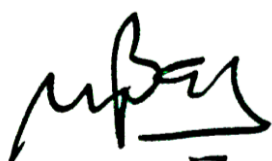

It is now time to build on this success. I am pleased to issue new lesson plans across all primary and JSS school grades in Language Arts and Mathematics. These plans give teachers the support they need to cover each element of the national curriculum. In total, we are producing 2,700 lesson plans – one for each lesson, in each term, in each year for each class. This is a remarkable achievement in a matter of months.

These plans have been written by experienced Sierra Leonean educators together with international experts. They have been reviewed by officials of my Ministry to ensure they meet the specific needs of the Sierra Leonean population. They provide step-by-step guidance for each learning outcome, using a range of recognised techniques to deliver the best teaching.

I call on all teachers and heads of schools across the country to make best use of these materials. We are supporting our teachers through a detailed training programme designed specifically for these new plans. It is really important that these Lesson Plans are used, together with any other materials you may have.

This is just the start of education transformation in Sierra Leone. I am committed to continue to strive for the changes that will make our country stronger.

I want to thank our partners for their continued support. Finally, I also want to thank you – the teachers of our country – for your hard work in securing our future.

Introduction

to the Lesson Plan Manual

These lesson plans are based on the National Curriculum and meet the requirements established by the Ministry of Education, Science and Technology.

- 1  The lesson plans will not take the whole term, so use spare time to review material or prepare for exams
 - 2  Teachers can use other textbooks alongside or instead of these lesson plans.
 - 3  Read the lesson plan before you start the lesson. Look ahead to the next lesson, and see if you need to tell pupils to bring materials for next time.
 - 4  Make sure you understand the learning outcomes, and have teaching aids and other preparation ready – each lesson plan shows these using the symbols on the right.
 - 5  Quickly review what you taught last time before starting each lesson.
 - 6  Follow the suggested time allocations for each part of the lesson. If time permits, extend practice with additional work.
 - 7  Lesson plans have a mix of activities for the whole class and for individuals or in pairs.
 - 8  Use the board and other visual aids as you teach.
 - 9  Interact with all pupils in the class – including the quiet ones.
 - 10  Congratulate pupils when they get questions right! Offer solutions when they don't, and thank them for trying.

Aunt Aminata is very short and thin. She plaits her hair in lots of little plaits. Her eyes are small and twinkly. She wears very bright clothes. She wears shoes with beads on them.

She is so small that sometimes people think she is a child. When they see her in her bright dresses they say, 'Why are you wearing your mother's clothes? You should be at school!' My aunt just laughs.

Once she was riding in a poda poda. Suddenly the driver drove off the road into a maize field. Open the windows,' shouted the driver. 'Pick some maize!' 'We can't take the maize!' said my aunt. 'Yes, you can! It's my field,' laughed the poda poda driver. Aunt Aminata came home with a bag full of maize.

Another time, my aunt was in the market. Suddenly, a goat ran towards her. My aunt stood and shouted at the goat. 'Stop!' she shouted. But the goat ran and ran. My aunt got caught on its horns. The goat ran through the market with my aunt on its back. Everyone laughed and laughed.

[TEXT: HIV AND AIDS]

HIV and AIDS are caused by a virus. People with the virus are HIV positive.

People get the virus when fluids from the body, like blood, mix with the fluids of a person who is HIV positive. You cannot get the virus by holding hands or being friends with someone who is HIV positive.

People can be HIV positive for a long time. When people become very sick and weak, it is because the virus has destroyed a lot of cells. This is when we say someone has AIDS. People with AIDS are often too sick to work. There is no cure for HIV and AIDS, but many people can live a long and normal life.

[*STORY: THE BOY WHO CRIED WOLF*] adapted from ESSPIN lesson plans, Primary Level 4, Week 18.

Joseph looked after the village goats, taking them to the hills every day to eat grass. He was happy because no one told him what to do. However, he soon got bored.

There was a large pack of wolves living in the hills that often came down to the village to kill the goats. Joseph was fed up one day. He decided to make something exciting happen.

He ran down the hill towards the village. 'Wolf! Wolf!' he cried, 'Wolf! Help!'

The villagers heard his cries and ran towards the hills. Joseph climbed up into a tree and watched. The villagers were shouting and waving sticks to frighten away wolves.

Joseph laughed so much that he nearly fell out of the tree.

When everyone had gone, he climbed down and took the goats back to the village. The villagers were angry with him but he told them it was a joke and they should be glad that the goats were safe.

A few days later, Joseph decided to play the same trick on the villagers again. He thought it was very funny that everyone came running because of him.

A few weeks later, he was sitting in the sun when suddenly he heard the goats cry out. The wolves had come! He tried to scare them away, shouting and waving his arms. Running to the village, Joseph shouted, 'Wolves! Help!' The villagers were angry and said, 'You have played this trick too many times!'

Joseph was ashamed and went back to the hills. The goats had gone and all he could see was a mess of fur and blood. He sat down and cried, 'Why did I do such a bad thing?'
