

Choose your NEW

SSS Curriculum stream and subjects in 3 steps...

1

Select your specialist stream

Look at the Specialist Streams Grid and decide which stream most interests you.

Also:

★ Talk with your teachers, parents, friends and school's Guidance Counsellors.

★ Think about the subjects you are good at and like.

★ Think about what you want to do in the future.

5 Specialist Streams

- ★ Social & Cultural Studies
- ★ Languages & Literatures
- ★ Economics, Business & Entrepreneurial Studies
- ★ Mathematics & Numeracy
- ★ Sciences & Technologies

2

Select your school

Identify your first and second choice of schools. It will depend on whether they offer the stream you are interested in. Not every school will offer every stream but every stream will be available in at least one school in your district.

3

Select subjects to study

Each stream has three types of subjects: core subjects; applied subjects and everyday subjects.

You must choose 6-10 subjects

- ★ 3 or 4 **core** subjects from your specialist stream
- ★ 1 or 2 **applied** subjects from your specialist stream
- ★ 1 or 2 **applied** subjects from outside your specialist stream
- ★ 1 or 2 **everyday** subjects offered outside of your specialist stream

You can see the complete Specialist Streams and Subjects grid here: <https://bit.ly/3xmOoNG>

REMEMBER: Avoid choosing too many subjects and choose subjects you are good at, and enjoy.
